

Children's Health Foundation

improves the health of children through its support of research, education, and care in Oklahoma.

April 1, 2021 to March 31, 2022

Annual Report

children's
health
foundation

CHAMPION CHILD

Ady was the 2021 Children's Health Foundation Champion Child and represents more than 10 million kids who enter a children's hospital each year for treatment.

Ady is the oldest of three siblings, and she faced an enormous enemy. Ady's mom received a phone call instructing her to bring Ady to the team of doctors at the Jimmy Everest Center for Cancer and Blood Disorders. More testing uncovered a large mass in Ady's chest. She was diagnosed with stage 4 high-risk neuroblastoma.

This frightening diagnosis was scary for everyone, except Ady. She was determined to "kick cancer's butt," as she said one day while laying in her hospital bed. Ady endured a two-month stay in the hospital, along with several rounds of intensive treatments. This warrior proved that she was tougher than cancer. Now, Ady is cancer FREE!

Mr. William Yinger

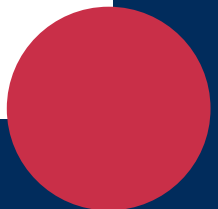

In December of 2022, Children's Medical Research, Inc. will celebrate Forty Years of its founding. We recently adopted the new trade name of Children's Health Foundation of Oklahoma to celebrate our future programs supporting children throughout the state. We honor our doctors and their teams for facing the tough times of the pandemic and all they have done to keep Oklahoma's children safe and well. And, we thank our donors, board members, and volunteers who have taken so many extra steps to support our programs during these times.

Our dedication and adaptability is steadfast, and we are extremely grateful for a community that has not only encouraged us, but also supported us in improving the health of children through the support of research, education, and care in Oklahoma. Recently, nine physician-scientists were added to the ranks of CMRI/CHF Endowed Research Chairs! Last year we continued our priority fundraising effort for childhood cancer. As of July, we have raised \$4.8 million of our \$6 million goal! We have embarked upon a plan to fund a new million dollar research program in diabetes. Both programs have matching funds available for gifts received.

In this report, you will receive an update on last year's miracle child... 2021 Champion, Ady. Thank you to our many generous partners and donors for all you have done in driving our mission to change the future of pediatric healthcare for communities near and far. We undoubtedly have challenges ahead, but we know that together, we will continue to rally together and fight for children's health in Oklahoma.
